**Dear Hiring Manager,**

I am writing to convey my interest in the **Full Stack Engineer / Technical Architect** position at your esteemed organization. With more than 11 years of experience in designing and delivering scalable, cloud-native applications across various sectors—including media streaming, healthcare, e-commerce, and banking. I offer a robust technical background and a commitment to developing impactful, enterprise-grade solutions.

As a Microsoft-certified developer and current Consultant at Microsoft, I have managed end-to-end development of complex applications utilizing **.NET, ReactJS, and Azure PaaS services**. My areas of expertise include distributed systems architecture, DevOps automation with Azure DevOps, and the development of reusable frameworks that accelerate delivery cycles. Additionally, I provide mentorship to junior developers and actively participate in sprint planning, design reviews, and quality assurance processes.

**Notable achievements:**

- **Led the development** of an AI-driven risk assessment platform for the UK National Health Service, employing Azure Machine Learning and .NET Core.
- **Developed a real-time media streaming orchestration system** for NBA games, leveraging Azure Event Hub, Cosmos DB, and CQRS patterns.
- **Implemented automation for warehouse operations** on an e-commerce platform using Selenium scripts and Azure services, resulting in significant reductions in manual effort.
- Worked upon the many **enterprise solutions** of the **Microsoft** premium customer from all the regions of the world

Your organization's dedication to innovation and addressing real-world challenges through technology strongly appeals to me. I am confident that my technical acumen, leadership capabilities, and focus on continuous improvement would enable me to add considerable value to your team.

Thank you for considering my application. I welcome the opportunity to discuss how my skills and experience can contribute to your organization's ongoing success.

**Warm regards,**

**Roshan Louhar**
